Where Vision Meets Precision

300+ Projects

***REVOLUTIONIZING THE FUTURE

Innovating Automation
Solutions Since 1995
Pioneering the Future with
ITS, Smart Cities, IoT, EV
Charging & Digital Twinning.
Transforming Industries with
Cutting-Edge Technology

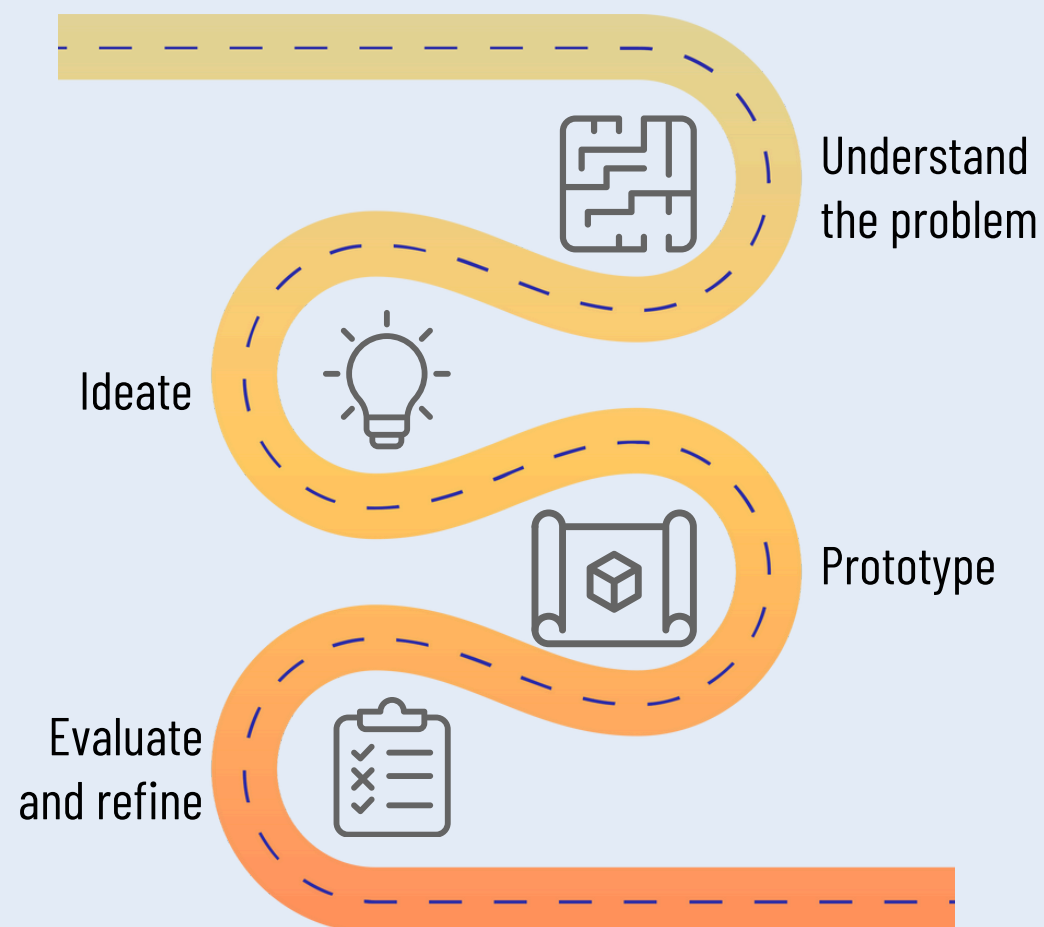

About US

FOR OVER 30 YEARS, SAUDI CONTROLS HAS BEEN A TRUSTED PARTNER
IN DESIGNING, DEPLOYING, AND MAINTAINING CUTTING-EDGE
TECHNOLOGICAL SOLUTIONS ACROSS SAUDI ARABIA. AS AN ISO 9001-
CERTIFIED LEADER, WE SPECIALIZE IN TRANSFORMING
INFRASTRUCTURE INTO INTELLIGENT, SUSTAINABLE ECOSYSTEMS
ALIGNED WITH **VISION 2030**.

Our Promise

WE DON'T JUST DEPLOY SYSTEMS—WE ARCHITECT FUTURE-READY ECOSYSTEMS WHERE INNOVATION MEETS RELIABILITY. BY BLENDING SAUDI TALENT WITH GLOBAL EXPERTISE, WE TURN VISION 2030'S AMBITIONS INTO OPERATIONAL REALITIES.

SMARTTRAFFIC SOLUTIONS

Pioneering Sustainable Solutions

Transforming Visions into Intelligent Realities

Intelligent Transportation Systems (ITS)

- Transforming mobility for smarter cities
- AI-driven traffic management and congestion prediction
- Adaptive signal control and collision avoidance
- Traffic Signal Priority System
- Pedestrian Signal Control System
- EV charging infrastructure and Smart grid integration

Saudi's Blueprint for a Smarter World. Where Ambition Meets Algorithm

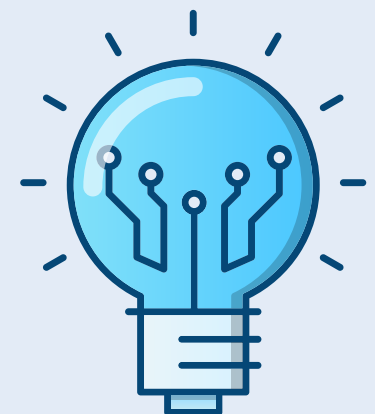

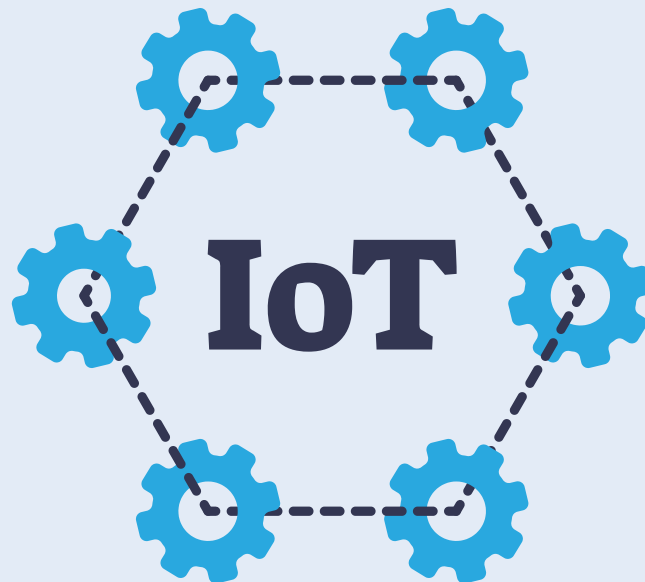

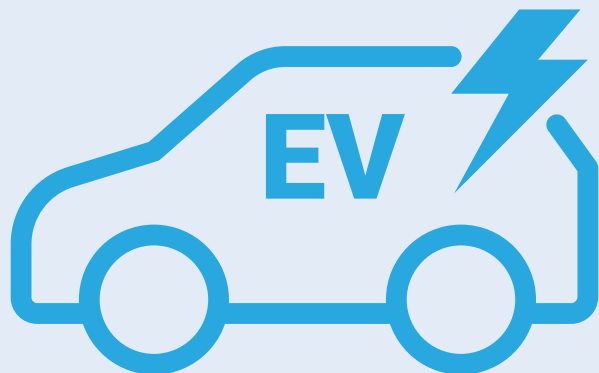

PROJECT: RIYADH ADVANCED TRAFFIC CONTROL SYSTEM
CLIENT: ROYAL COMMISSION FOR RIYADH CITY

PROJECT: MAKKAH ADVANCED TRAFFIC CONTROL SYSTEM
CLIENT: MAKKAH REGION DEVELOPMENT AUTHORITY/ MAKKAH METRO RAIL TRANSIT CO. (MMRTC)

Saudi Controls: Elevating Innovation Through Bespoke Technological Mastery **Where Vision Meets Precision.**

Smart Infrastructure Solutions **Building Intelligent Ecosystems**

- **Smart Building Automation:** IoT-enabled **BMS**, energy optimization, and centralized **fire** safety systems.
- **Sustainable Urban Development:** **Green** building certifications, **EV** charging networks, and **solar** integration.
- **Legacy Modernization:** Retrofitting outdated systems with **AI**-driven controls.

B

Project: ARAMCO – CORE and Parks Area

Client: **ARAMCO** Design, supply and T&C for Core Building and Parks total points 450,000

M

Project: Land Forces Head Quarters, Riyadh

Client: **Ministry of Defense** & Aviation/GDMW Design, Supply and T&C of BMS total points 25,000

S

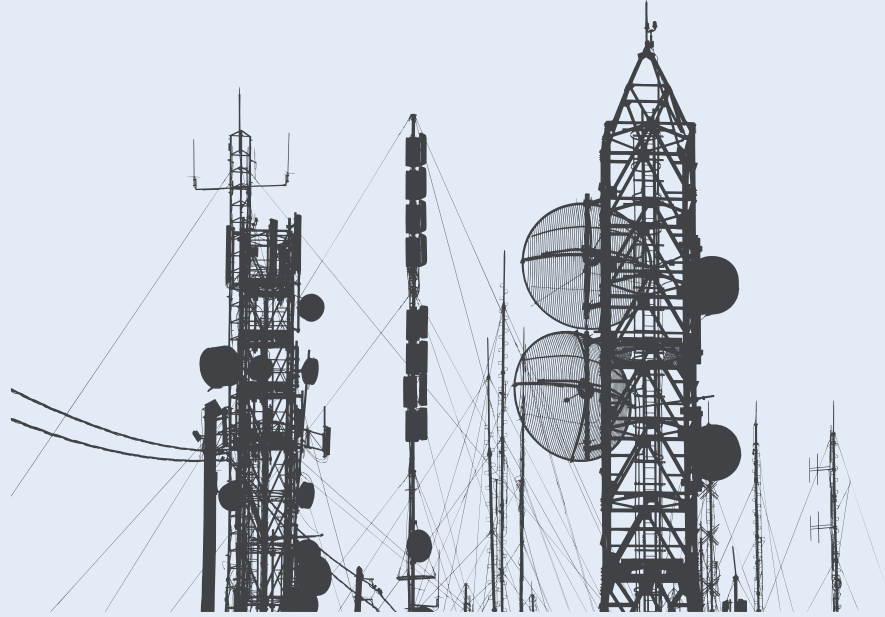

Project: KAP2C – 4 Military training Cities at Jazan & AlBaha

Client: **Ministry of interior**, Design, Supply and T&C of BMS total points 200,000

Project: Ministry of foreign affairs HQ – FAS, BMS

Client: **Ministry of Foreign Affairs** Design, Supply and T&C of BMS total points 16,000 and Fire Management System total detectors 8,000

Telecommunications & IoT

Connecting Tomorrow

- Private 5G Networks: Ultra-**secure**, high-speed communication grids.
- Rich Media Solutions: Unified platforms for seamless collaboration.
- Smart Utilities: Remote **monitoring** of water, power, and waste systems.
- Impact: Deployed **350+** intersections for Riyadh's Advanced Traffic Control.

Project: Phase I&II

Client: Royal Commission For Riyadh City

Design, supply, installation, commissioning and maintenance of a wideband wireless network.

Project: STCS-MOI CCTV2

Client: Ministry of Interior, Riyadh

Design, supply, installation and commissioning of 200 wireless links

Secure Communications & Defense Technologies

- Safeguarding critical assets with military-grade precision:
- Perimeter intrusion detection systems (PIDS)
- Secure video conferencing and encrypted networks
- AI-powered surveillance and threat analytics

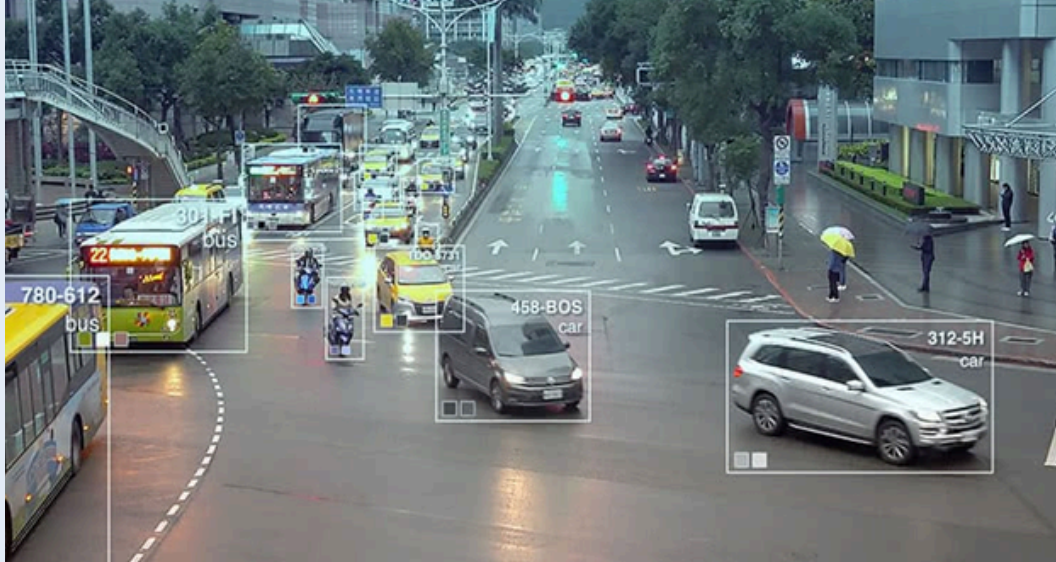

Project: 4 Air Bases

Client: Royal Saudi Air Force (RSAF)

Scope: Design, Supply, installation, T&C of CCTV, PA, Brief/De-Brief, Tele Brief, Scramble, BMS and Fault Signaling Systems.

Project: King Fahad Airbase upgrade

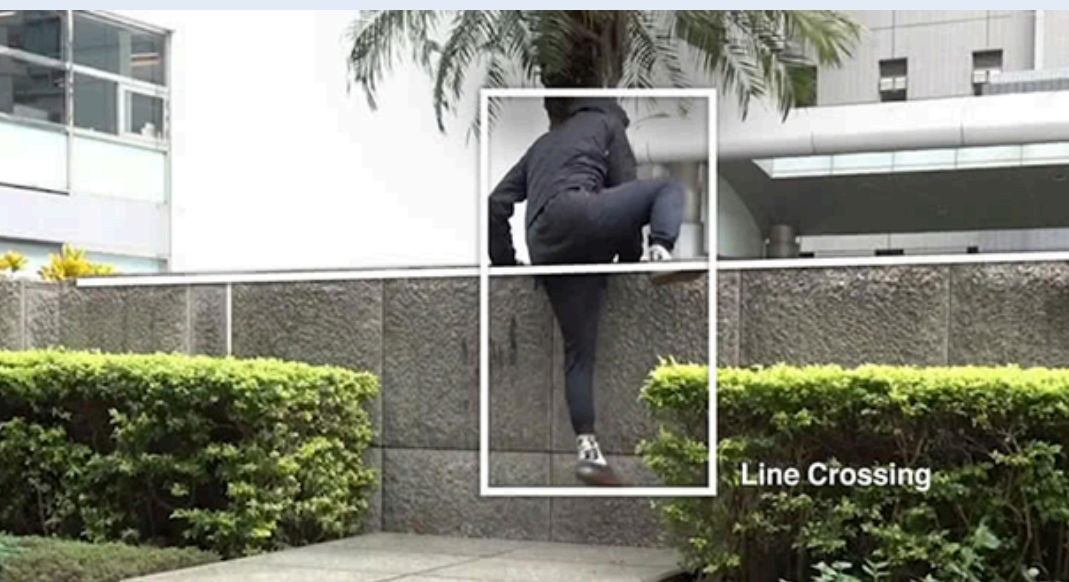

Client: Royal Saudi Air Force (RSAF) Supply, installation and T&C

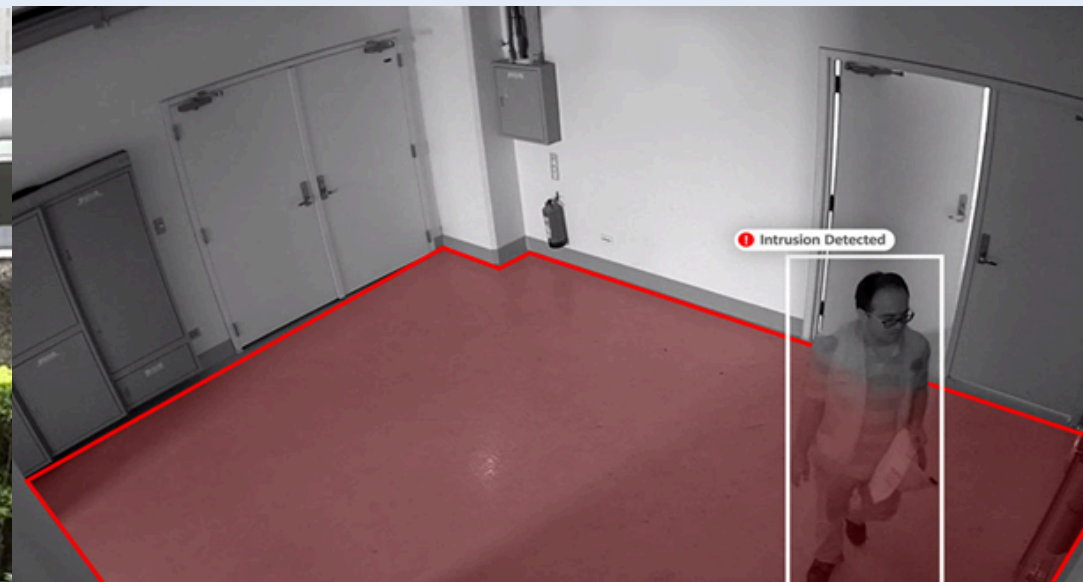

Vehicle Detection/ Recognition

Face Detection/ Recognition

Behavior Analysis

Intrusion Detection System

Empowering Intelligent Urban Futures—Harnessing advanced **AI** to deliver **smart** and **safe** city solutions that redefine urban living. Our technology creates connected, resilient, and sustainable communities where efficiency, **security**, and quality of life flourish

Saudi Controls: Commanding Innovation for a Safer Saudi

ELECTRIC VEHICLES CHARGING SYSTEMS (EVCS)

DC CHARGING

AC CHARGING

ROBOTIC CHARGING

SOLAR ENERGY

Saudi Controls delivers smart, scalable EV Charging Systems to power Saudi Arabia's sustainable mobility. From AC chargers for urban use to DC Fast Chargers for highways, our solutions ensure seamless EV adoption. Integrated with smart energy management.

SAUDI CONTROLS HAS PARTNERED WITH **CEER** SAUDI TO DEVELOP AC PORTABLE EV CHARGERS, ADVANCING SUSTAINABLE MOBILITY SOLUTIONS. THIS COLLABORATION ALIGNS WITH SAUDI ARABIA'S VISION 2030, DELIVERING INNOVATIVE, USER-FRIENDLY CHARGING TECHNOLOGY THAT PRIORITIZES EFFICIENCY AND RELIABILITY. TOGETHER, WE'RE DRIVING THE KINGDOM'S ELECTRIC VEHICLE FUTURE AND REINFORCING OUR LEADERSHIP IN GREEN ENGINEERING.

CENTRALIZED FIRE ALARM MONITORING SYSTEM

- 24/7 REAL-TIME SURVEILLANCE: MONITOR FIRE ALARMS ACROSS HUNDREDS OF SITES FROM A SINGLE, INTUITIVE DASHBOARD.
- GPRS/GSM & FIBER-OPTIC INTEGRATION: SEAMLESS COMMUNICATION ACROSS URBAN AND REMOTE LOCATIONS.
- AI-DRIVEN INCIDENT PRIORITIZATION: AUTOMATICALLY FLAG HIGH-RISK ALERTS FOR RAPID RESPONSE.
- SCALABLE ARCHITECTURE: SUPPORTS RESIDENTIAL COMPLEXES, INDUSTRIAL ZONES, AND SMART CITY GRIDS.

Management for Water Supply- SCADA

- Reduce Water Loss: Pinpoint leaks with 99% accuracy, minimizing non-revenue water (NRW).
- Energy Efficiency: Optimize pump operations to cut energy costs by up to 30%.
- Compliance: Meet Saudi Arabia's stringent water quality and sustainability regulations.
- Scalability: Adaptable to municipal networks, industrial complexes, and agricultural systems.

End-to-End Service:
From design to
maintenance,
ensuring seamless
SCADA lifecycle
management.

OPERATIONS & MAINTENANCE

**WE FIX IT RIGHT
THE FIRST
TIME!**

No afterthoughts. No surprises. Just precision-built solutions that sustain value, efficiency, and trust—for decades, not years.

We pioneer systems engineered to last—not just perform.
By integrating operations and maintenance expertise into design DNA.

Our specialized O&M engineers bring the unique expertise that keeps projects on track—delivering reliability, efficiency, and long-term value.

Thank You!

Our commitment to excellence, integrity, and innovation—as embodied in Saudi values—will steer us toward sustainable success. Together, we will meet future challenges, enhance our operations, and set new benchmarks in transparency and progress.
